# POST CONSTRUCTION CLEANING

Throughout each phase of the construction project, our commercial clients turn to us to deliver a superior Rough, Final and Touch Up Cleaning of the job site.

## Rough Clean, Final Clean & Touch Up

Through all phases of the construction project, our teams provide a detailed Rough, Final & Touch Up Cleaning for a spectacular final reveal of the project.

We work safely. With a proper OSHA certified workforce and Safety Data Sheets, you'll have the peace of mind knowing that our teams work safely in all facets of the project.

## LEED Certification

Following the LEED framework, know that our teams work to ensure the health, efficiency and cost-saving green nature of your establishment to keep you in compliance as you focus on maintaining your LEED certificate.

## Exterior Windows

Let our team help maintain the curb appeal of your business with bright & clean exterior windows.

## Power Washing

For those tough exterior cleaning needs, our power washing approach powers through to clean dirt, stains, salt, and other debris from a variety of surfaces.

## Floor Stripping & Waxing

For a polished floor, our professionals apply a careful technique, using powerful equipment in order to produce a spotless, protective, and attractive finish to your floors.

Rigorous In-House Training Provided / Lift Trained / First-Aid Trained / Safety Trained
